TokuProfile is the easiest way to read nature's most complex system: **the immune state**

The complete solution for immunotherapy developers to de-risk multi-million dollar experiments

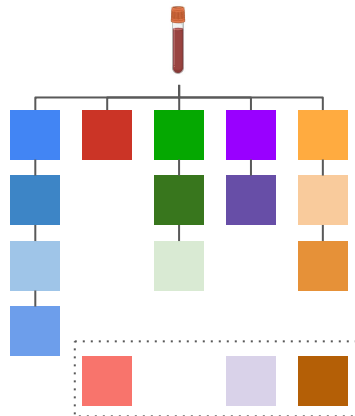

First Mile

Collection of whole blood made easy

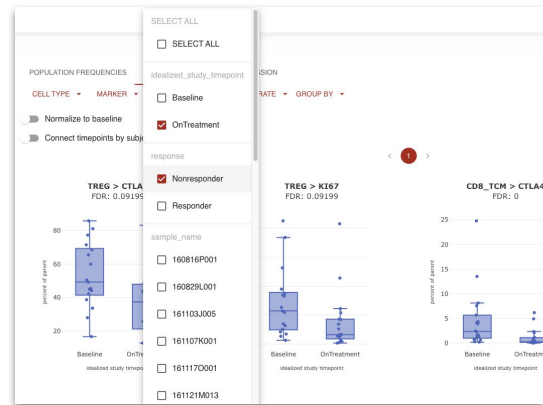

Middle Mile

Validated 25+ marker panels

Last Mile

Computational analysis and clear-cut reports

TokuProfile is the easiest way to read nature's most complex system: **the immune state**

The complete solution for immunotherapy developers to de-risk multi-million dollar experiments

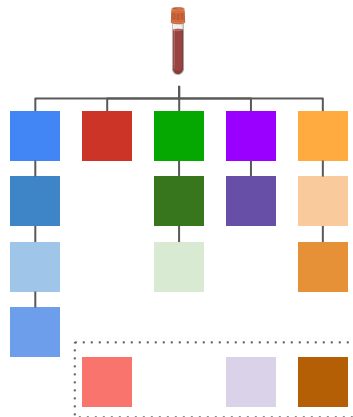

First Mile

Collection of whole blood made easy

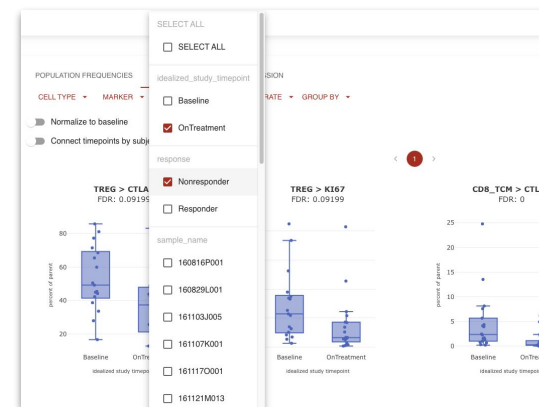

Middle Mile

Validated 25+ marker panels

Last Mile

Computational analysis and clear-cut reports

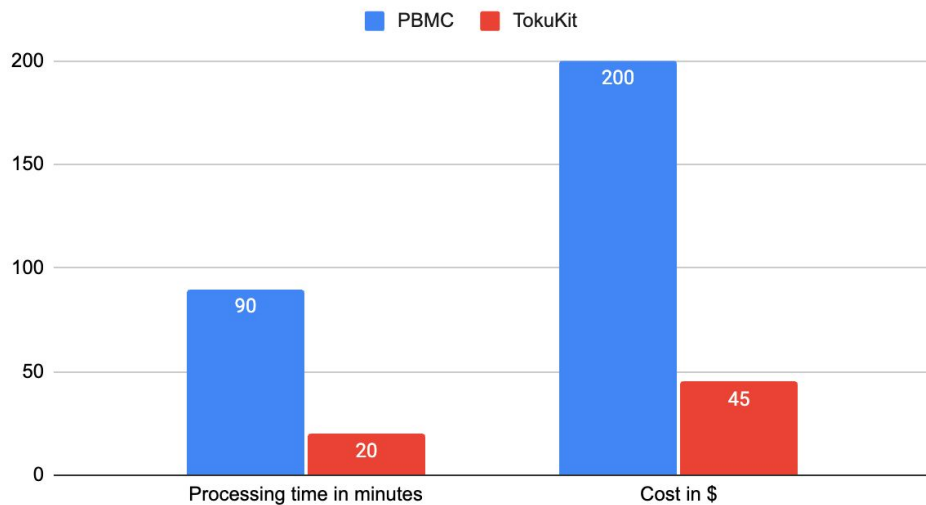

5 hours to start process; 24 months to analyze

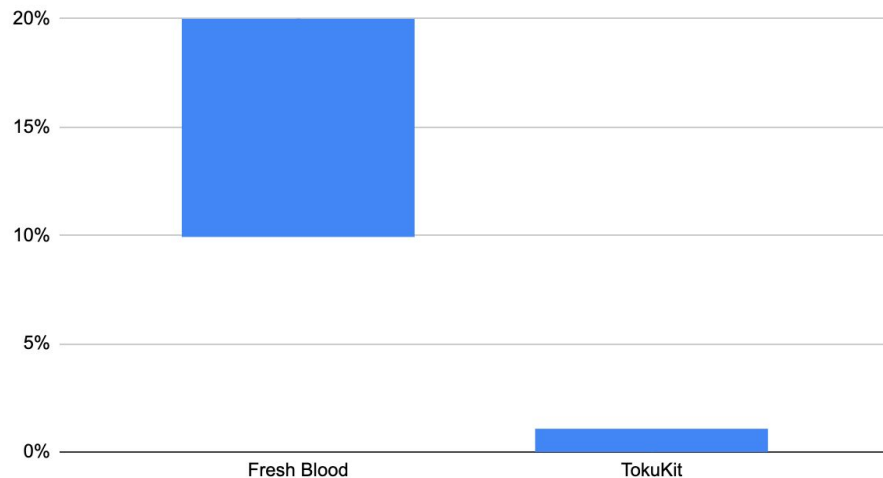

Teiko's TokuKit: a sample collection solution for the first mile

TokuKit 78% lower cost and time consumed than PBMC

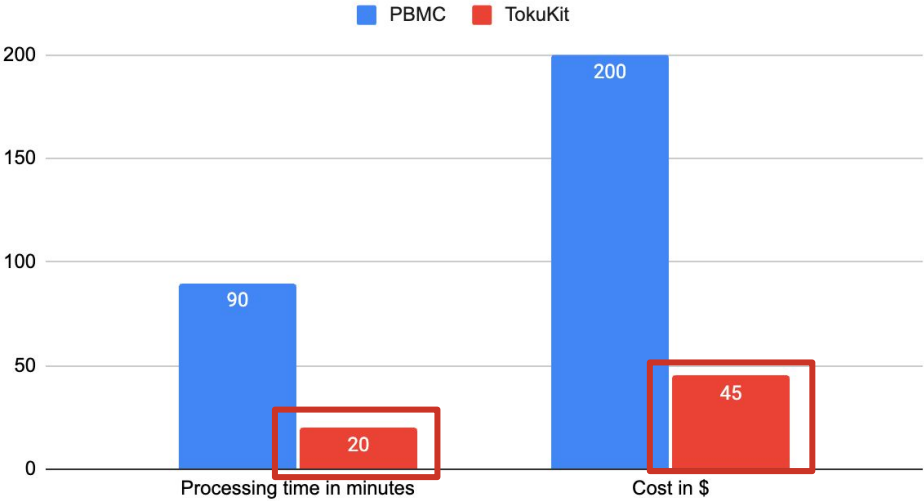

TokuKit has 10-20X better failure rate than fresh blood

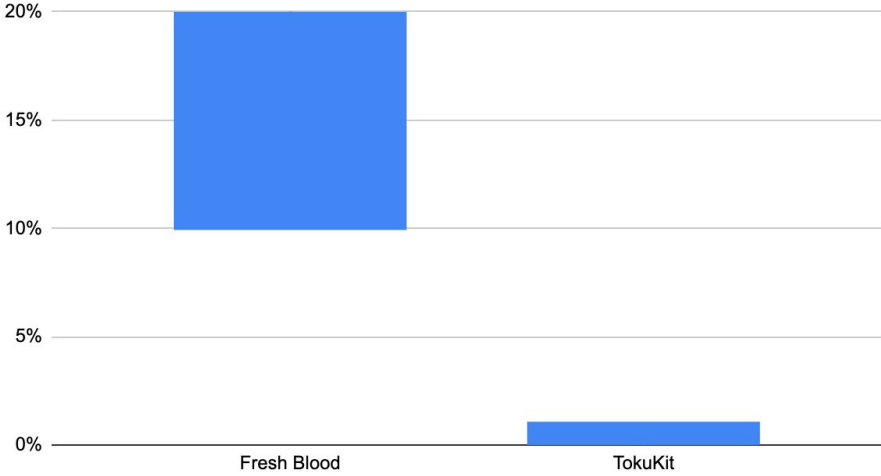

Teiko's TokuKit: a sample collection solution for the first mile

TokuKit 78% lower cost and time consumed than PBMC

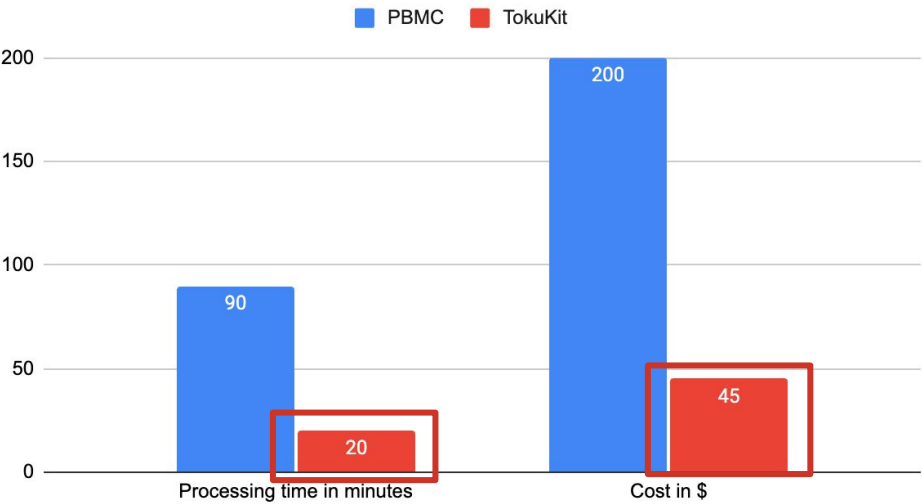

TokuKit has 10-20X better failure rate than fresh blood

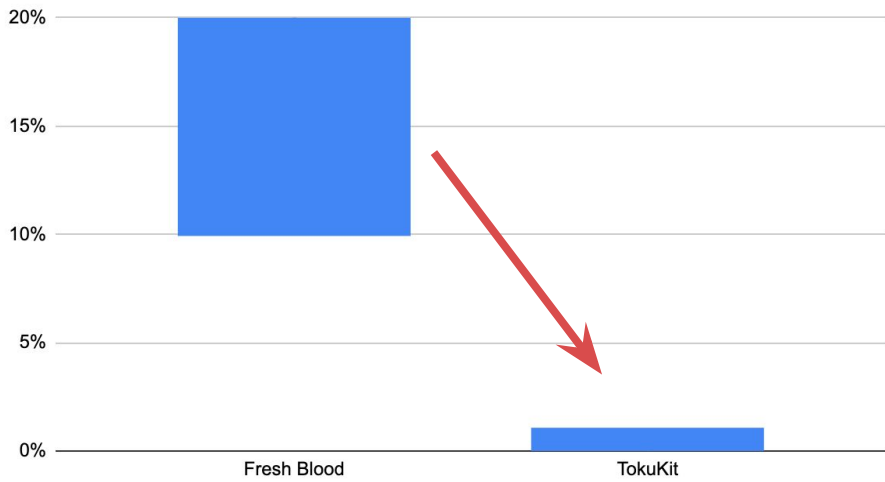

Teiko's TokuKit: a sample collection solution for the first mile

TokuKit 78% lower cost and time consumed than PBMC

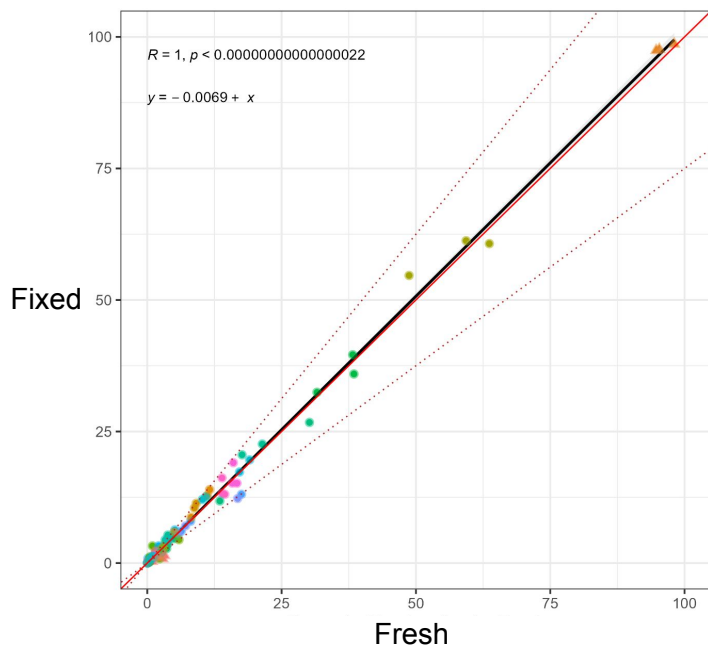

TokuKit has 10-20X better failure rate than fresh blood

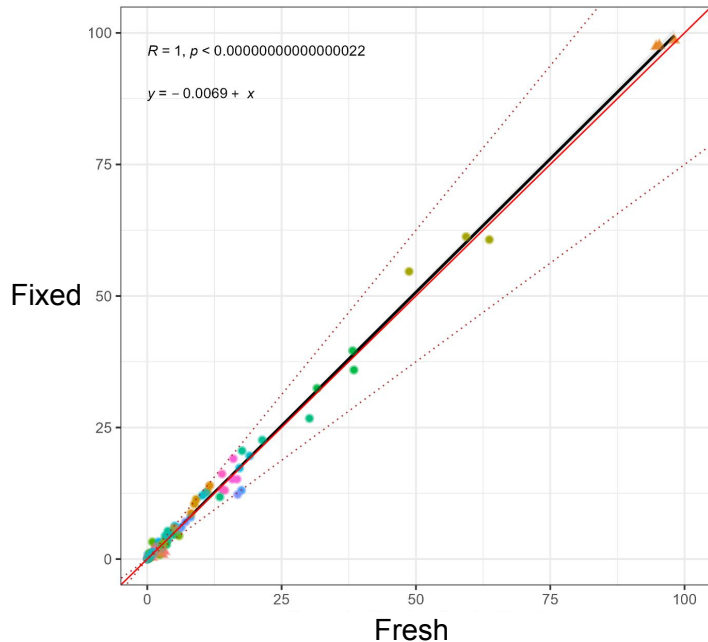

Demonstrated **>0.99 correlation** between fresh and fixed whole blood samples on mass cytometry

Correlation of cell population frequencies

Demonstrated **>0.99 correlation** between fresh and fixed whole blood samples on mass cytometry

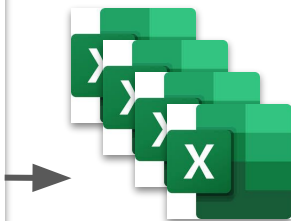

Correlation of cell population frequencies

>0.99 correlation in frequencies of 35 immune cell populations

Subject Request for kits
Date Today at 5:04 PM

Hi shipping,

May you please send over 4 kits to Site 001 - SLC? We plan to activate them mid-October so sending these over now will be just in time for activation. Here is her email: kristina@teiko.bio and her number is: 801-555-5555. Below is the address. Please let me know if you need anything else. Thank you!

Kristina

675 Arapeen Drive

Suite 301

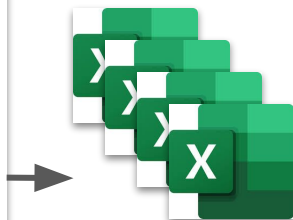

SLC UT, 84015

Best,

Kristina
